---

Good Evening

I wish to protest the proposal of placing a Materials Recovery Centre in Fyshwick. I cannot believe that it is even being considered – why would anyone even think to place a centre like this in the middle of a light industrial/commercial centre close to so many retail shops, eye hospital, childcare centre. The list goes on.

Please make the right decision – do not build it in Fyshwick.

People vote who they will believe will do a good job so I would consider your actions as this is not in any ones best interests.

Thanks [REDACTED]
