**Subject:** Materials recovery facility  
**Date:** Thursday, 21 June 2018 11:56:21 AM

---

To The Chief Planning Executive,

I am writing to formally object to the CRS Materials Recovery Facility Fyshwick application number EIS201700053.

I am not against a recovery facility but I am against the proposed site.

I am a business owner in Fyshwick employing 33 part time, casual and permanent employees, I am also a resident of Narrabundah, for obvious reasons the facility should not be located in a light commercial industrial area that would impact on hundreds of people directly and indirectly in the immediate area.

I am sure the reasons against are well documented by now,

Loss of trade,

Depreciation of property values,

Truck traffic/ movement,

Just to name a few.

The proposed site is just wrong every way you look at it, Mugga Dump has many years left!

Yours sincerely,

[REDACTED]
