

# HUME RESOURCE RECOVERY FACILITY

INTEGRATED MANAGEMENT SYSTEM

## Volume 1 FACILITY OPERATIONAL MANUAL

AGGREGATES

SAND

RECYCLED WATER

LANDSCAPING MATERIALS

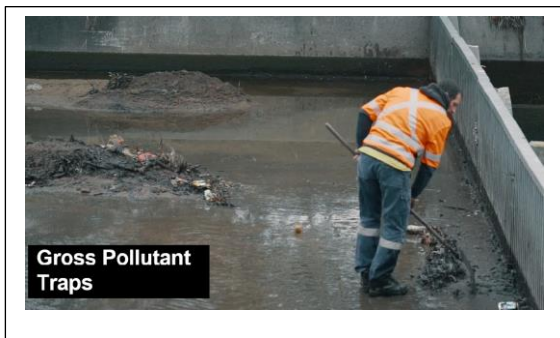

SOIL & SOIL AMENDMENTS

*We recycle and repurpose waste resources into high quality products and materials.*

*We pull products, not push waste.*

The facility has been developed to promote the circular economy which aims to retain the value of materials in the economy for as long as possible, reducing the unsustainable depletion of natural resources and impacts on the environment by overusing resources and disposing of waste in landfills.

Draft

## Table of Contents

### Volume 1

Introduction

Quality System Overview

CHAPTER 1 Resource Recovery Facility and Process Description

CHAPTER 2 Process Operation Plan

CHAPTER 3 Environmental Management Plan

CHAPTER 4 Risk Management Plan

CHAPTER 5 Plant Safety Management Plan

CHAPTER 6 Waste Management Plan

CHAPTER 7 Personnel Training

CHAPTER 8 Testing /Quality Control Plan

CHAPTER 9 Process Chemicals Management, Use and Storage

CHAPTER 10 Auditing and Reporting

CHAPTER 11 Record Management

CHAPTER 12 Plant Repairs and Maintenance

CHAPTER 13 Plant Approvals and Lic Conditions

CHAPTER 14 Emergency Facility Plan

CHAPTER 15 Incident and Complaint Management Plan

CHAPTER 16 Facility security /Key sets/Codes/ Signage

CHAPTER 17 Facility Housekeeping

CHAPTER 18 Administration

## Volume 2

### IMS Attachments

Attachment 1 – EPA Lic Conditions/ reporting requirements

Attachment 2 – Other Plant Approval Conditions / reporting requirements

Attachment 3 - Facility Plan / Emergency Accessibly Point

Attachment 4 – Facility Plans – As executed drawings

Attachment 5 – CDE Processing Plant drawings/Process Schematic

Attachment 6 – Plant and Equipment Warranties and Service Schedules

Attachment 7 – Laboratory Equipment and calibration

Attachment 8 – Plant signage and Posters

Attachment 9 – MSDS Process chemicals

Attachment 10 – Weighbridge hardware/software

Attachment 11- Contractor Waste Receival Agreement Proforma

Attachment 12 – Product Standards / Australian Standards

Attachment 13 – Legislation and Regulation Register

Attachment 14 – Plant Quality Accreditation Certificates / Review

Attachment 15 – Contact list

Attachment 16 – Checklists

Attachment 17 – Facility Operating procedures FORMS/QC test methods

Attachment 18- Safe Work Method Statements

Attachment 19 – Personnel Protective Equipment
