Subject: Fyshwick - Draft Environmental Impact Statement, Materials Recovery Facility Fyshwick, Section 8, Blocks 9 & 11 Capital Recycling Solutions Application Number 201700053
Date: Monday, 25 June 2018 4:51:45 PM

I strongly oppose approval of the proposed materials recovery facility being located on blocks 9 & 11 section 8 Fyshwick.

I can find no justification for the plant being located on this site in an area which is slowly becoming more gentrified and it would severely impact the operation of the many businesses in the area.

Fyshwick is a Canberra suburb frequented by so many for consumer purposes – whether it be cars, furniture, whitegoods, flooring, curtains, tools, clothes and auctions etc. Many businesses have invested in Fyshwick because of the Government's support bulky goods retailing. As a result complimentary businesses in Fyshwick include bakers, cafes, accountants, lawyers, architects, car washes and the list goes on. Fyshwick is a destination suburb for many Canberran's and the addition of the central waste facility for all of Canberra's domestic waste would ruin Fyshwick as it is today.

There is enough vacant land in other areas of the ACT where such a facility would not impact on the lives and livelihood of so many.

Thank you for your consideration.
