## 1.0 INTRODUCTION

### 1.1 Outline of the process

Minor plan amendment 2026-08 (MA2026-08) to the Territory Plan is a minor plan amendment (MA) prepared under section 84 (2) (d) and (e) and section 89(1) of the *Planning Act 2023* (the Act).

Section 84 of the Act outlines the different types of MAs, some which require limited consultation to be undertaken and some which require no consultation to be undertaken.

Under Section 85 of the Act an MA can only be made where:

- any required limited consultation has taken place and the authority is satisfied that the content of the MA meets the requirements of the Act
- if the MA is not inconsistent with the planning strategy or any relevant district strategy
- any comments received during the consultation period and from the National Capital Authority have been considered.

This MA requires limited consultation to be undertaken and is being released for public consultation in accordance with the Act.

The MA is not inconsistent with the planning strategy and the Molonglo Valley District Strategy.

The National Capital Authority has received a copy of this MA.

For more information on the content of the Territory Plan and minor plan amendment processes please refer to the Planning website: [The Territory Plan - City and Environment Directorate - Planning](#)

## 1.2 Summary of the proposed amendments

MA2026-08 proposes to make the following changes:

### Molonglo Valley District Policy

#### Area specific assessment outcomes:

- amend assessment outcome 3 to clarify the intentions around place making and built form for the Molonglo town centre and surrounds reflective of the ACT Government's most recent master planning for the district
- clarify that assessment outcome 9 regarding views only applies to assessment of subdivision proposals while the land remains within a future urban area

#### Assessment requirements

- amend Assessment Requirement 36 to specify that the part of the provision referencing assessment outcomes for building heights does not include Assessment Outcome 9

### Territory Plan Map

- Change the indicative land use zone of the parcel of land shown as the 'subject site' on the Territory Plan Map at figures 2 and 3 from Residential RZ3 Urban Residential Zone to RZ5 High Density Zone

## 1.3 Summary of proposed changes to technical specifications

Technical specifications may be used as guidance in how to meet the relevant assessment outcomes in the Territory Plan in the preparation and assessment of a development application. Technical Specifications may not be met if a development can demonstrate it can meet all the relevant provisions of the Territory Plan.

The technical specifications are not part of the Territory Plan. Therefore, they will be amended to take effect separately but concurrently when/if this MA is finalised and commences.

An explanation of the proposed changes to the Molonglo Valley District Specifications is provided along with the Territory Plan changes (changes to the relevant district policy) being made via this minor amendment, as they provide the benchmark guidance for consideration of appropriate building heights within the Molonglo Town Centre and surrounds.

To give effect to the intended development subject to the area specific assessment outcomes in the Molonglo Valley District Policy, the following amendments to the Molonglo Valley District Specifications are proposed:

## Minor Amendment 2026-08

- Revise the Specifications to align with the amendments proposed to the area specific assessment outcomes in the Molonglo Valley District Policy
- Replace Figure 26A to reflect the revised heights for the various areas within the Molonglo Town Centre and Surrounds.
- Delete the existing Specification 3.3 as it is no longer applicable.
- Introduce a Specification that permits increased building heights where a greater proportion of family friendly units are provided along with certain design outcomes.
- Introduce a Specification that permits landmark buildings in areas D and E in Figure 26A
- Introduce a new specification 3.3 to permit increased building heights where a greater proportion of family friendly units are provided.

## 2.0 CONSULTATION WITH THE PUBLIC

### 2.1 Consultation period

Written comments on MA2026-08 are invited from the public by: **10 June 2026**.

Note: public consultation has been extended until **26 June 2026**.

### 2.2 Written comment requirements

Comments need to include your name and reference to MA2026-08. The Authority may contact you in relation to your comments to request further information. If you wish to be contacted, include your contact details, including an email address and/or telephone number.

### 2.3 How to submit written comments

Written comments can be submitted by:

- email to [terrplan@act.gov.au](mailto:terrplan@act.gov.au)
- mail to: GPO Box 158, Canberra ACT 2601
- hand delivery to: Access Canberra Building Services Shopfront at 8 Darling Street, Mitchell ACT 2911

Where comments are mailed or hand delivered to the addresses above, envelope and documents should be attention to: Territory Plan and Planning Reform Section, CED and include a reference to MA2026-08.

### 2.4 Public release of written comments

Written comments received on this MA will be published on the authority's website for at least 15 working days, starting 10 working days after the consultation period for the MA ends. Your personal information will be managed in accordance with the *Information Privacy Act 2014* and the CED Information Privacy Policy (the latter is viewable on CED's website).

Unless requested otherwise:

- names and contact details of individuals making written submissions will not be published
- contact information of business or community, industry, political and interest groups making written submission may be published.

You may request part of your submission to be excluded from public release under part 14.2 of the Act.

## 3.0 PROPOSED TERRITORY PLAN CHANGES

### 3.1 Molonglo Valley District Policy

The proposed changes to the Molonglo Valley District Policy are required as there is a need for increasing the building heights to deliver the Government's housing supply targets within the town centre and surrounds to balance increased open space requirements due to the tree retention requirements in accordance with the *Urban Forest Act 2023*. The increased open space requirements have reduced the developable area available, which has prompted a demand for greater building heights to compensate.

There is also an increased demand across the Territory for family friendly apartments comprising 3 or more bedrooms which development within Molonglo Town Centre will need to reflect and, which has been identified during the most recent master planning work for the area. The demand for larger dwellings for more family friendly urban living opportunities may require additional floorspace and corresponding increase in building heights to achieve the target of 7,000 dwellings to be provided within the Molonglo Town Centre and surrounds.

To provide greater flexibility in facilitating a larger proportion of family friendly apartments containing 3 or more bedrooms, an incentive is proposed to allow extra storeys where a greater proportion of family friendly dwellings with 3 or more bedrooms is provided.

#### Amendments to assessment outcomes

- Amend assessment outcome 3 to clarify the requirements in certain locations and also to provide opportunities for increased building height where development provides a greater proportion of family friendly dwellings consisting of 3 or more bedrooms, in anticipation of the increased floor space requirements for larger apartments.
- Amend assessment outcome 9 to clarify that the consideration for views from the town centre to significant landscape features to be retained is addressed during the subdivision design development application phase only (whilst land is within a future urban area) and not for development applications for individual buildings.

The additional wording / clarification is provided in the underlined text below

## Minor Amendment 2026-08

Locality	Assessment outcome
Molonglo Town Centre and surrounds (Figure 5)	3. Varied building heights, with taller buildings having slender footprints, encourages built form that responds to existing topography and the natural environment, and generally provides a gradual transition in height and scale. Lower buildings are located in the suburban areas, with the tallest buildings in the <u>commercial centre and along major transport corridors</u> . A variety of heights are provided across the Town Centre and surrounds to create architecturally interesting streetscapes and provide views to the river corridor and broader landscape, <u>with additional height considered for buildings that incorporate a greater proportion of apartments that incorporate 3 or more bedrooms and functional, generous environments for family living.</u>
<u>Molonglo Town Centre and Surrounds – Future Urban Areas (Figure 5)</u>	9. Views from the town centre to significant landscape features, such as Black Mountain are retained, to assist people to easily navigate the town centre and promote a sense of place.

### Amendments to assessment requirements

Assessment requirement 36 is revised to reflect that the consideration of the range of building heights and locations within the town centre and surrounds is controlled by Assessment Outcomes 3-8.

The additional wording clarification is provided in the underlined / strikethrough text below:

Locality	Assessment requirement
Building Height	36. Residential development to a maximum of 6 storeys is permitted at group and local centres. This does not apply to the Molonglo Town Centre and surrounds (Figure 5) as building heights in this area are controlled by Assessment Outcomes 3- <del>8</del> 9.

To remove any doubt, Assessment Requirement 36 and the corresponding Assessment Outcomes 3-8 (specifically Assessment Outcome 3 pertaining to building heights) in the Molonglo Valley District Policy over-ride the building height limits in the Residential Zones Policy. This is articulated in Part A Administration and Governance in the Territory Plan to the effect that assessment requirements in district policies will prevail where inconsistencies occur (ref. section A.4. How to use the Territory Plan).

### 3.2 Territory Plan Map

The Territory Plan map is proposed to be amended by rezoning the subject site as indicated in figures 1, 2 and 3 from Residential RZ3 – Urban Residential Zone to RZ5 - High Density Residential Zone. This amendment will bring the indicative zoning under future urban area (FUA) into line with the future development intentions of this parcel of land for high density residential development.

## Minor Amendment 2026-08

The proposed rezoning under FUA is not inconsistent with the Molonglo Valley District Strategy as the subject site is within the Category 1 change area and is in close proximity to the Molonglo Town Centre and therefore can support the objectives of achieving higher densities close to services, recreational and community facilities, public transport and employment. The rezoning to permit higher density residential development will also contribute towards meeting the 700 dwelling target for this location.

Figure 1 – Location map for rezoning of subject site

Minor Amendment 2026-08

## Minor Amendment 2026-08

The Territory Plan Map is proposed to be amended as follows:

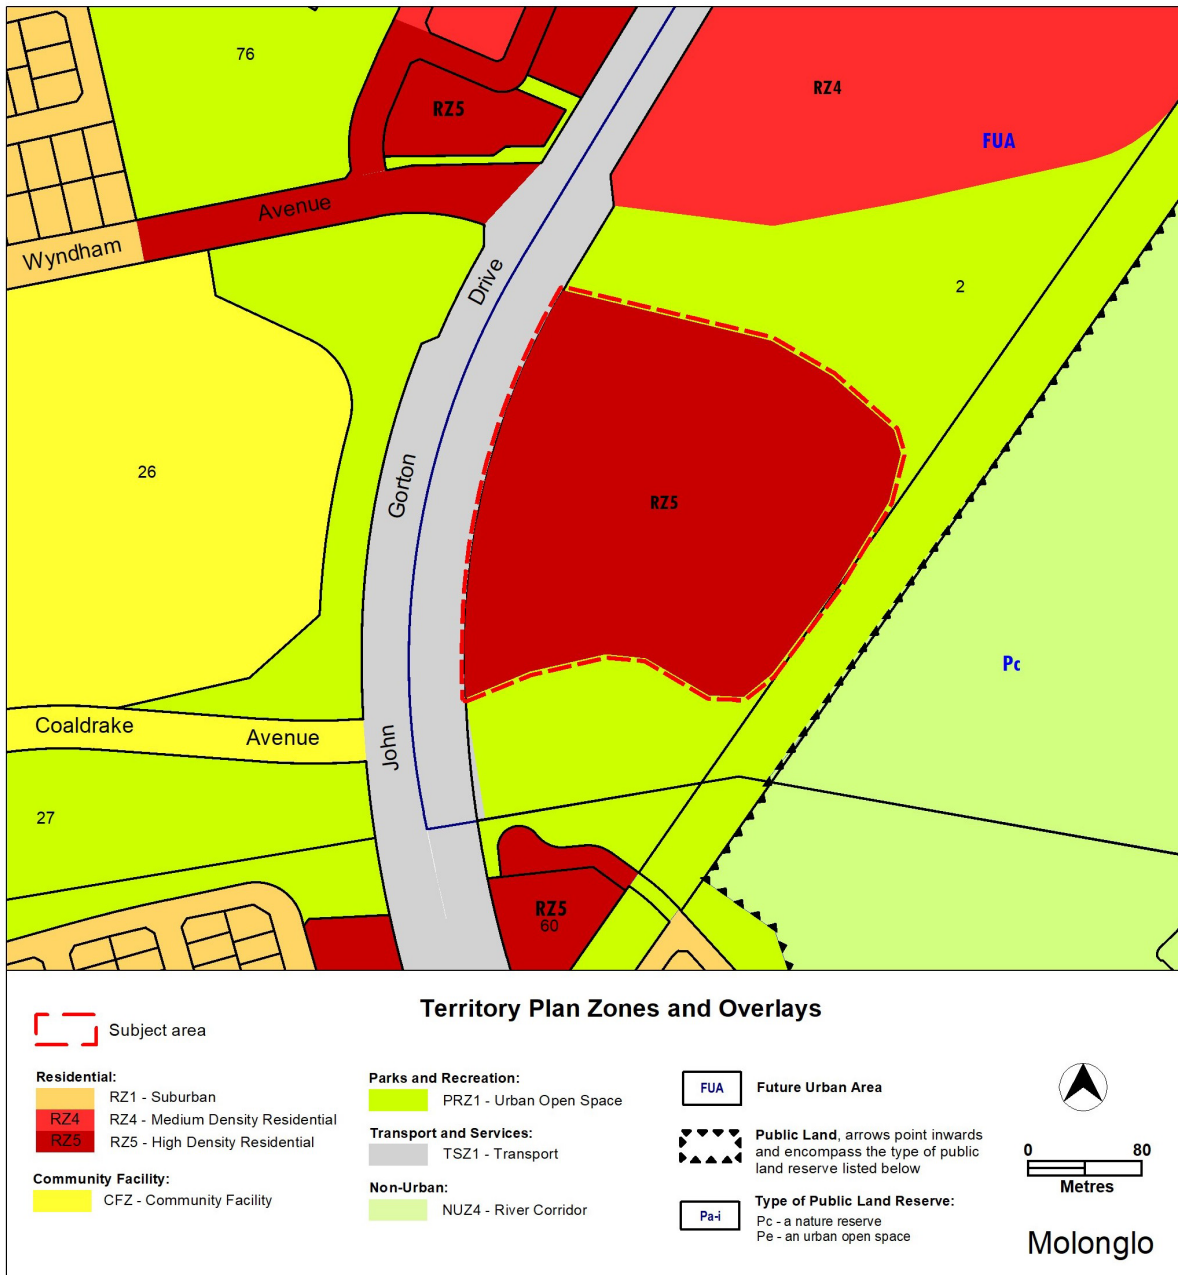

Figure 3: Proposed Territory Plan Map – Molonglo Town Centre and surrounds

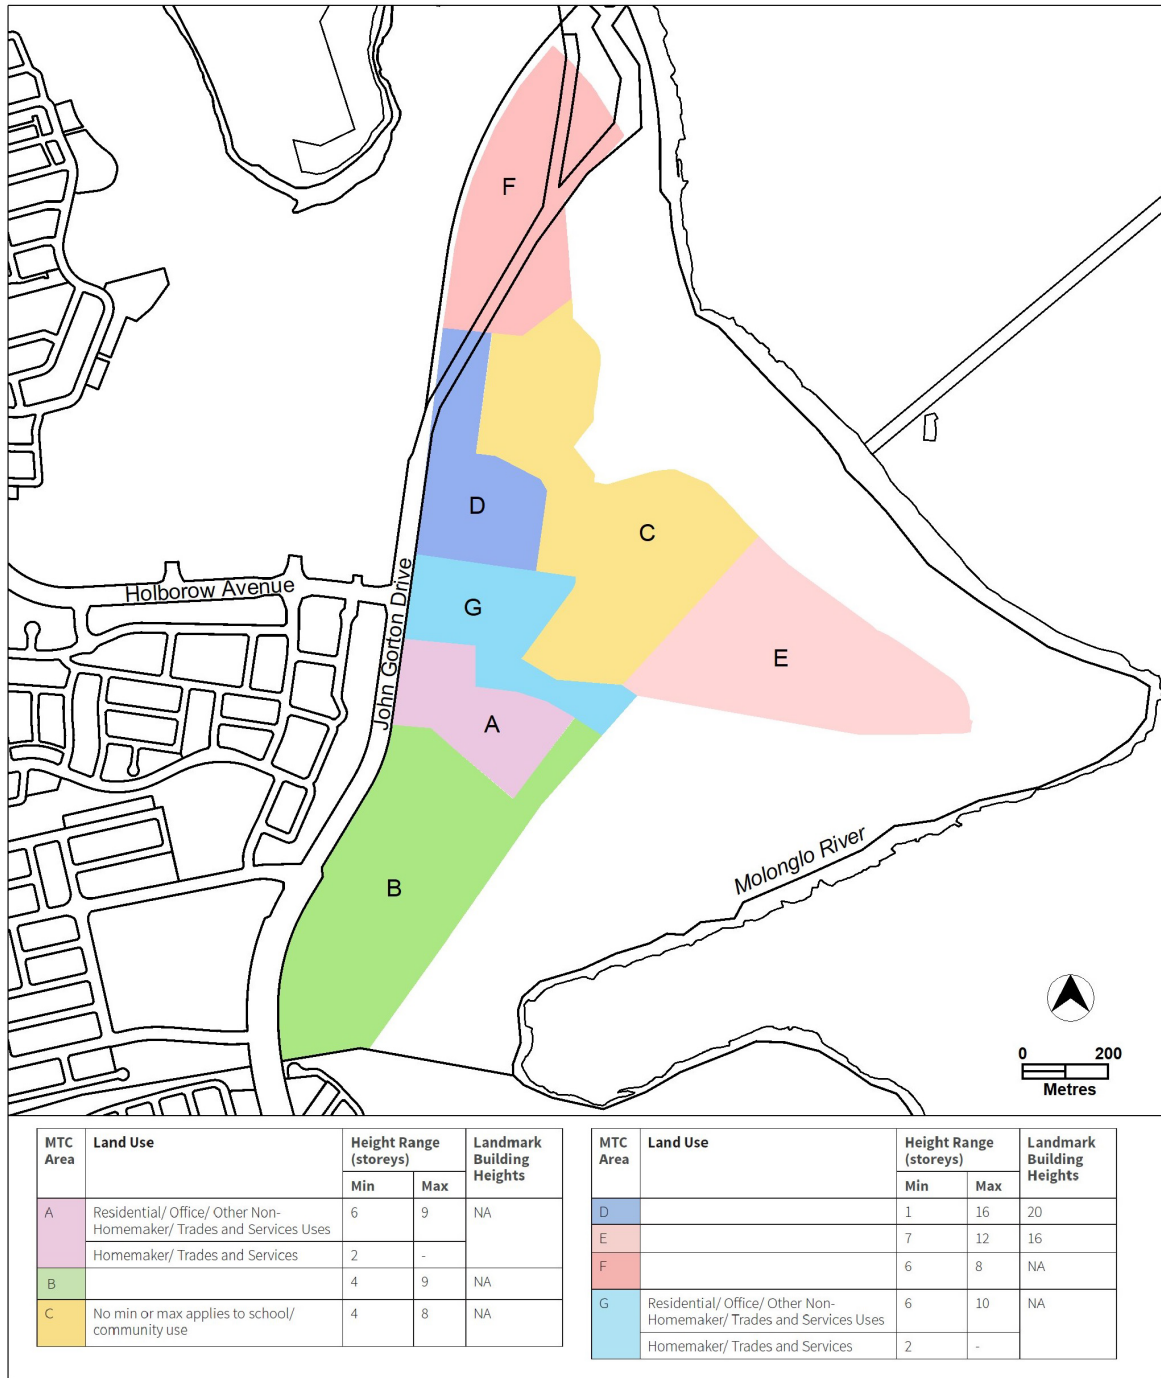

### 3.3 Proposed changes to Molonglo Valley District Specifications

The proposed changes to the Molonglo Valley District Specifications are provided in strike-through and underlined text below:

Assessment Outcome 3	<p>Varied building heights, with taller buildings having slender footprints, encourages built form that responds to existing topography and the natural environment, and generally provides a gradual transition in height and scale. Lower buildings are located in the suburban areas <u>with the tallest buildings in the commercial centre and along major transport corridors</u>. A variety of heights are provided across the Town Centre and surrounds to create architecturally interesting streetscapes and provide views to the river corridor and broader landscape, <u>with additional height considered for buildings that incorporate a greater proportion of apartments that incorporate 3 or more bedrooms and functional, generous environments for family living</u>.</p>
Specification	
<b>Building Heights</b>	<p>3.2. A range of building heights, including maximum building heights are indicated in Figures 26A and 26B.</p> <p>3.3. Taller buildings are to be carefully distributed at key locations which may include corners and sites adjacent to park or plaza frontages.</p> <p><del>3.3. In the area shown on Figure 26A as hatched, one building up to 29 metres (approximately 8 storeys) is permitted where building design contributes to a safe and interesting streetscape</del></p> <p>3.4. <u>For the areas shown in Figure 26A where residential development is proposed, the maximum height of a building may be increased by an additional 3 storeys, where the building achieves all of the following:</u></p> <ol style="list-style-type: none"> <li>i) <u>the dwelling mix of the units in the building seeking the additional height is a:</u> <ul style="list-style-type: none"> <li>• <u>maximum 25% 1 bedroom units;</u></li> <li>• <u>maximum 40% 2 bedroom units; and</u></li> <li>• <u>minimum 35% 3 or more bedroom units.</u></li> </ul> </li> <li>ii) <u>there is a clear difference in height between buildings within a block so that building height is not the same across the buildings in the precinct;</u> <u>and</u></li> <li>iii) <u>the proposal demonstrates a positive contribution to the streetscape.</u></li> </ol> <p>3.5. <u>In areas D and E shown in Figure 26A one landmark building up to the height indicated is permitted per hectare of development footprint.</u></p> <p>Note: Plant room that is set back a minimum of 3m from the building façade of the floor immediately below, and screening and other non-gross floor area rooftop architectural features are excluded from the building height.</p>

## Minor Amendment 2026-08

## 4.0 TERRITORY PLAN AMENDMENT INSTRUCTIONS

This section provides the legal instructions for how MA2026-08 proposes to amend the Territory Plan.

### 4.1 Part D: D05 – Molonglo Valley District Policy

#### Area specific assessment outcomes

#### Assessment Outcome 3:

##### *Substitute*

Locality	Assessment outcome
Molonglo Town Centre and surrounds (Figure 5)	3. Varied building heights, with taller buildings having slender footprints, encourages built form that responds to existing topography and the natural environment, and generally provides a gradual transition in height and scale. Lower buildings are located in the suburban areas, with the tallest buildings in the commercial centre and along major transport corridors. A variety of heights are provided across the Town Centre and surrounds to create architecturally interesting streetscapes and provide views to the river corridor and broader landscape, with additional height considered for buildings that incorporate a greater proportion of apartments that incorporate 3 or more bedrooms and functional, generous environments for family living.

*Hyperlink* text referring to Figure 5 to the corresponding Figure 5.

#### Assessment Outcome 9

##### *Substitute*

Locality	Assessment outcome
Molonglo Town Centre and Surrounds – Future Urban Areas (Figure 5)	9. Views from the town centre to significant landscape features, such as Black Mountain are retained, to assist people to easily navigate the town centre and promote a sense of place.

*Hyperlink* text referring to Figure 5 to the corresponding Figure 5.

Assessment Requirement 36

Substitute

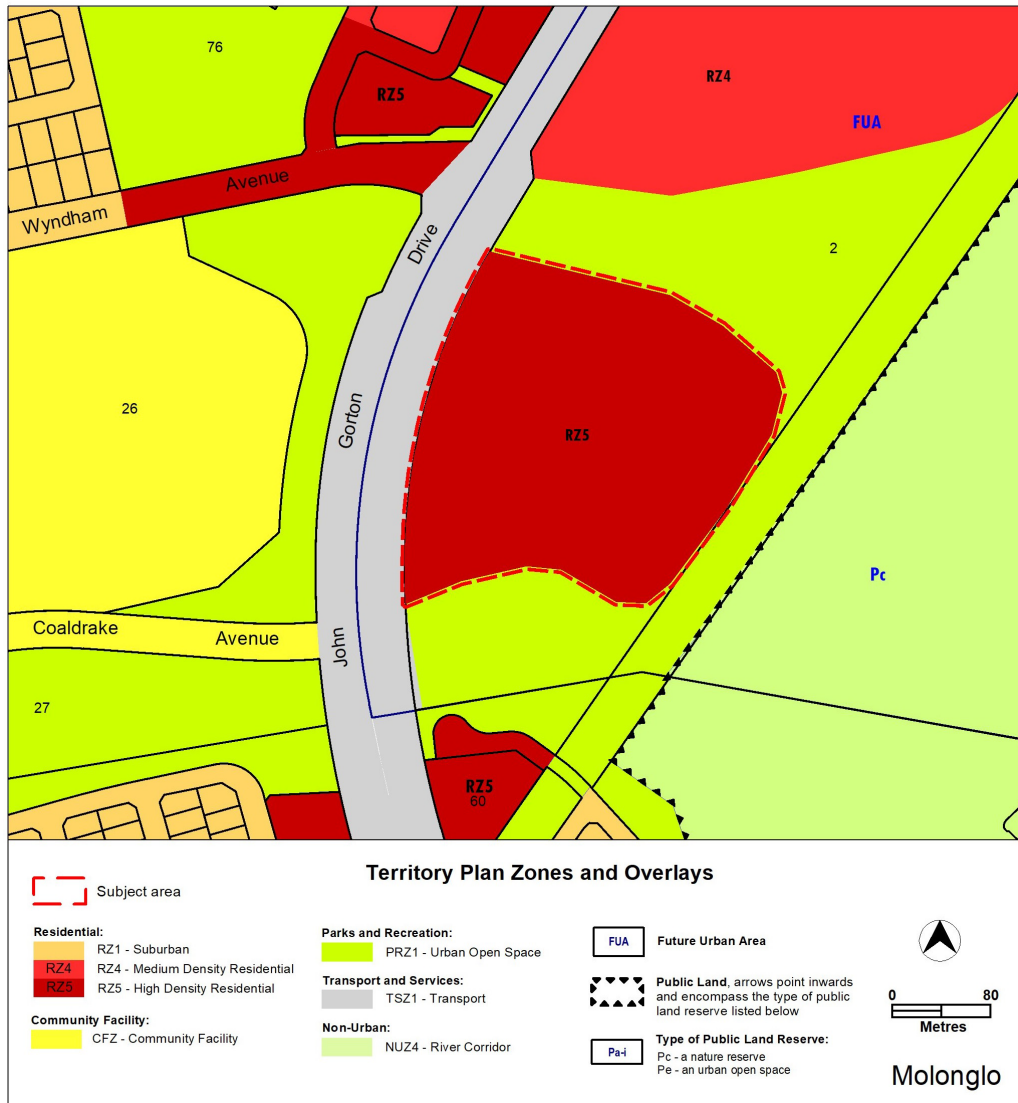

Locality	Assessment requirement
Building Height	36. Residential development to a maximum of 6 storeys is permitted at group and local centres. This does not apply to the Molonglo Town Centre and surrounds (Figure 5) as building heights in this area are controlled by Assessment Outcomes 3-8.

Hyperlink text referring to Figure 5 to the corresponding Figure 5.

4.2 Part B – Territory Plan Map

The relevant part of the Territory Plan map is varied as indicated below.

Molonglo Town Centre and surrounds
