

Dear EPSDD staff,

I would like to oppose the proposed MTF proposed for Fyshwick. Re. Canberra Times article 19 June, 2018 "Recycling plant would 'destroy Fyshwick as we know it': business", I have concerns and great empathy for the local business owners and their staff members working in the local of this proposal. This project will have an unacceptable impact on people utilising the region around the facility and especially people that will have to commute through the significant increase in trucks and deal with the smell of a garbage tip in their daily working regime.

Thank you,
