Draft Environmental Impact Statement, Materials Recovery Facility Fyshwick, Section 8,
Blocks 9 & 11
Capital Recycling Solutions
Application Number 201700053

I own and operate a small business, [REDACTED] - a video production house
([REDACTED]), who is looking to rent a space at the newly developed Dairy
Flat Road. Being only a 15min drive from the city and with competitive rent costs, it
makes this location highly attractive for an emerging business like myself in the creative
space of video production.

The materials recovery facility would not be an appealing operation to have in such a close
proximity to my business.

Kind regards,
[REDACTED]
