Sustainable Development

## PROJECT UPDATE

On Friday 18 December 2017, residents surrounding Block 23 Section 31 O'Malley attended an information session about the release of the site for development. A number of issues were discussed, including:

- Loss of green space and residential amenity
- Amalgamation of Blocks 23 and 24 and adjacent car park to create Block 25 Section 31
- Impact on trees
- Impact on traffic
- Closure of the adjacent car park and impact on on-street parking
- Impact on property prices
- Options for residents to purchase the site

A response to issues will be emailed to the distribution list and uploaded to the website in early January.

In early January, after the Christmas break, a letter will be distributed to broader O'Malley residents notifying of the ACT Government's intention to amalgamate Blocks 23 and 24 Section 31 and the adjacent car park. The letter will again invite residents to register for project updates on this site.

Please note that the website has been updated – [Block 25 Section 31 O'Malley](#).
