Section 8, Blocks 9 & 11
Capital Recycling Solutions
Application Number 201700053

I strongly oppose approval of the materials recovery facility being located on blocks 9 & 11 section 8 Fyshwick.

After giving this matter plenty of thought, I can find no justification for the plant being located on this site.

Fyshwick is a Canberra suburb frequented by so many for consumer purposes – whether it be cars, furniture, whitegoods, flooring, curtains, tools, clothes and auctions the list goes on. Many businesses have invested in Fyshwick because of the Government’s support bulky goods retailing. As a result complimentary businesses in Fyshwick include bakers, cafes, accountants, lawyers, architects, car washes and the list goes on. Fyshwick is a destination suburb for many Canberran’s and the addition of the central waste facility for all of Canberra’s domestic waste would ruin Fyshwick as it is today.
