Subject: FYSHWICK RECYLING CENTRE

Categories: Green Category

I have only one real concern, that unless there is an upgrade to the road infrastructure then it could become a major problem for my business in Fyshwick. There is already a significant bottle neck from vehicles travelling from Canberra Avenue along Ipswich and Newcastle Sts and up onto Dairy Flat Rd. The problem could easily be alleviated by an on ramp from Canberra Ave up onto Dairy Flat Rd. This would absorb alot of the increase traffic
