1.0 INTRODUCTION

1.1 Outline of the process

Draft major plan amendment B (DPA-B) was placed on public consultation from 6 September 2024 until 21 October 2024. DPA-B has been amended and updated to consider a more comprehensive part of Section 19 Forrest, that is also considered suitable for mixed use development, as identified in the Inner South District Strategy.

Draft major plan amendment B (DPA-B) captures a combination of two proponent-initiated major plan amendments and a territory planning authority-initiated major plan amendment to the Territory Plan.

Under section 63 of the *Planning Act 2023* (the Planning Act) the Territory Planning Authority (the Authority) is making DPA-B available for public comment.

Proponent-initiated major plan amendments require an application to be lodged under section 57 of the Planning Act, which is considered, prior to the Authority preparing of a draft plan amendment.

In accordance with section 59 of the Planning Act, the Authority accepted the following proponent-initiated applications:

- 2023-02 for Block 9 Section 19 Forrest on 13 March 2024
- 2025-02 for Blocks 5, 6 and 11 Section 19 Forrest on 20 February 2025

The following site is an Authority-initiated major plan amendment, which does not require an application to be lodged:

- Block 12, Section 19 Forrest

For more information about the content of the Territory Plan and the major plan amendment processes please refer to the Planning website www.planning.act.gov.au/professionals/our-planning-system/the-territory-plan/amendments-to-the-territory-plan.

1.2 The National Capital Plan

The Commonwealth *Australian Capital Territory (Planning and Land Management) Act 1988* (ACT PALM Act) established the National Capital Authority, which is required to prepare and administer a National Capital Plan (NCP) and to keep it under constant review and propose amendments as necessary.

The NCP is required to make sure Canberra, and the Territory are planned and developed in accordance with their national significance. Additionally, the ACT PALM Act requires that the Territory Plan is not inconsistent with the NCP.

1.3 Background to the draft amendment

DPA-B was previously placed on public consultation from 6 September 2024 until 21 October 2024 and was only for Block 9, Section 19, Forrest.

The DPA has been revised to include Blocks 5, 6, 9, 11 and 12 in Section 19 Forrest to be consistent with the Inner South District Strategy and enable optimal strategic planning outcomes across Section 19.

Fifteen comments were received during public consultation when DPA-B was initially placed on consultation. The main points raised during consultation were:

- concerns about proposed building design and building heights
- traffic, access and parking issues
- the desire for a more holistic approach to rezoning
- that the proposal should be consistent with the planning detailed in the Inner South District Strategy
- lack of site planning controls to mitigate the urban heat island effect
- lack of requirements for planting area and canopy cover

More specifically the community indicated that a comprehensive approach for Section 19 Forrest would be more beneficial and would enable a cohesive approach and consistency of parameters for future redevelopment. Such an approach would also allow a greater level of community understanding of the approach for the whole section and is preferable to proceeding with a spot rezoning in isolation. This revised DPA responds to these community comments.

1.4 Inner South District Strategy

Section 19 is identified as 'Key Site 1 – Category 2' in the Inner South District Strategy. The strategy states that Blocks 5, 6, 9, 11 and 12 are zoned as either RZ1 or CZ6 and have potential to be rezoned to CZ5 Mixed Use, which could support uses including residential. The strategy also states that a full investigation of planning, environmental, infrastructure and traffic issues should be undertaken (including transport planning and modelling) with reference to the following principles:

- Provide a publicly accessible pedestrian path between Dominion Circuit and National Circuit.
- Access to the blocks is by the existing driveways. Avoid access from Dominion Circuit to Block 9 to reduce impact on the houses opposite.
- Provide suitable landscaping to the Dominion Circuit frontage to reflect the residential character opposite.
- Consider noise and overlooking impacts of the adjoining tennis courts and church. These uses may extend after hours and must not be compromised by any future redevelopment of these blocks.

1.5 The Proposal

The revised DPA-B proposes to amend the Territory Plan to rezone Blocks 5, 6, 9, 11 and 12 in Section 19 Forrest from Commercial CZ6 Leisure and Accommodation zone and Residential RZ1 Suburban zone to Commercial CZ5 Mixed Use zone

DPA-B also proposes to introduce new provisions in the Inner South District Policy and includes a site-specific assessment outcome limiting vehicular access from Block 9 to Dominion Circuit to provide safe and efficient traffic

movement, pedestrian movement and active travel. Assessment requirements include a maximum building height, landscaping to the Dominion Circuit frontage, and limiting gross floor area for shop selling food.

1.6 Supporting Reports

The supporting reports for the proponent-initiated major plan amendments (MPA), and the respective applications are available [here](#).

The supporting material for the Authority-initiated MPA for Block 12 Section 19 Forrest is detailed below.

1.7 Block 12 Section 19 Forrest – Supporting Report

The below has been prepared, pursuant to section 61 of the Planning Act, to support the proposed amendments to Block 12 Section 19 Forrest.

Block 12, which currently accommodates the Italian Cultural Centre, is subject to the Authority-initiated component of this draft amendment. It is included in the reference to Key Site 1 in the Inner South District Strategy. There is currently no proposal to redevelop the site but the change in zoning, in line with the Inner South District Strategy, will allow future opportunities for the site to be redeveloped in the future for mixed use development. A community activity centre is a permitted use in the CZ5 Mixed Use zone.

The planning strategy

The proposal to rezone Block 12 to the Commercial CZ5 Mixed Use zone, proposed by revised DPA-B aligns with the five (5) themes of the ACT Planning Strategy: compact and efficient city, diverse Canberra, sustainable and resilient Territory, liveable Canberra and accessible Canberra.

The change of zoning to CZ5 would support sustainable urban growth by allowing future redevelopment of the site providing an opportunity to deliver a mixture of land uses, including commercial and residential uses within Canberra's existing urban footprint, in a prime inner south location. The site is ideally located in close proximity to key public transport routes, including future light rail, office precincts and local and group centres, such as Manuka shops, which allows this urban footprint to sustain an increase in residential population.

This aligns with the directions of the ACT planning strategy by supporting the future provision of housing close to public transport and infrastructure, and also supports future opportunities for delivering sustainable, high quality land uses that meet the needs of the community. By zoning the site for mixed use, it allows the existing use as a cultural centre to continue on the site, while also allowing the opportunity for future redevelopment.

The relevant district strategy

The district strategies seek to capture and protect the valued character and attributes of the nine districts of Canberra. The district strategies deliver the ACT Planning Strategy by providing more specific and targeted directions for each district. The districts strategies guide the strategic management of growth and change on a district scale in the context of green and blue spaces, good travel connections, housing, employment growth and support commercial areas.

The proposal is consistent with the Inner South District Strategy because Blocks 5,6,9,11 and 12 Section 19 Forrest are marked as Key Site 1 – Category 2 change area where detailed planning can proceed, along with appropriate consultation, and it suggests that change could happen within 0–10 years. Section 1.4 in this document provides further details on this key site, as discussed above.

Any current or proposed amendments of, or of policies in, the Territory Plan

Policies within the Territory Plan are key to shaping places and communities in the ACT, implementing strategic planning objectives, protecting and minimising the impacts on our environment, and establishing future urban form and development patterns. The policies outline the desired policy outcomes that are important to a district or zone and include assessment outcomes and key assessment requirements that must be met by proposed development. Therefore, an application to amend these existing or proposed policies should be carefully considered.

The proposal is consistent with the relevant policy outcomes in the Inner South District Policy and the Commercial Zones Policy. There are no other current proposals to amend or change policies within the Territory Plan that would affect DPA-B.

The statement of planning priorities

The relevant minister responsible for planning and sustainable development can set a statement of planning priorities. These planning priorities must arise from the planning strategy and contain actions to be taken in the short to medium term to achieve the priorities.

The rezoning of Block 12 is consistent with the 2024-2025 Statement of Planning Priorities. Specifically, one of the priorities is to facilitate the release of land in the existing urban footprint, focussing on strategic planning and investigations to enable staged development in 'key sites' and 'change areas' identified in each urban district through the nine District Strategies including precincts next to rapid transport services. The subject block is included in a change area in the Inner South District Strategy.

Anything else the territory planning authority considers relevant to the amendment

No further specific matters were considered relevant to the amendment.

1.8 Site Description

Broadly, Section 19, and the directly adjoining Section 12 Forrest to the west are located Canberra's Inner South District and consists of a variety of land uses and zones. The zones are PRZ2 Restricted Access Recreation, Residential RZ1 Suburban, RZ2 Suburban Core, CFZ Community Facility and Commercial CZ6 Leisure and Accommodation.

Section 19 and Section 12 have a diverse range of uses including the Canberra Bowling Club, Forrest Tennis Club, Free Serbian Orthodox Church, Forrest Hotel, town houses, apartments, and the Italian Cultural Centre.

The area of Section 19 subject to this draft major plan amendment is shown in Figure 1 and consists of Blocks 5, 6, 9, 11 and 12.

Blocks 2 and 4 Section 12 (Residential RZ2), Block 3 Section 12 (bowling club), Block 8 Section 19 (tennis club) and Block 2 Section 19 (church) were not included in the change area in the Inner South District Strategy, and have therefore been excluded from DPA-B. Directly to the north and south adjoining the bowling club is a residential townhouse development on land that the club sold in the 1990s in order to secure revenue to rebuild the clubhouse and greens. The tennis club site has a public land 'Pi' Sport and recreation reserve overlay, and the church site is listed as a heritage place on the ACT Heritage Register.

South of the subject site is an area generally characterised by low density residential dwellings and is zoned RZ2. The Forrest Primary School is located to the north of Section 19 and the planning controls for this area are contained in the National Capital Plan administered by the National Capital Authority. Commercial office buildings are located to the east facing Canberra Avenue. To the west adjoining the subject blocks is the tennis club zoned PRZ2, the bowls club zoned PRZ2, and the church zoned Community Facility. Further to the west is predominantly single dwellings on large residential blocks in the RZ1 zone.

All of the blocks in Section 19 are well connected to main arterial roads (either Canberra Avenue to the east or Hobart Avenue to the west). The site is well connected to public transport with a bus stop located on National Circuit, adjacent the tennis courts. A Light Rail stop is anticipated to be located approximately 500m from the site. The Manuka shopping centre, Telopea Park School and Forrest Primary School are also all located within walking distance of the site. The nearby Barton office precinct offers a range of recreational amenities.

The site subject to DPA-B contains the following blocks and uses:

- Block 5 - occupied by low-rise multi unit residential buildings
- Block 6 - contains a hotel and serviced apartments
- Block 9 – is used as a carpark (previously occupied by the Italo-Australian Club)
- Block 11 – contains 2-storey apartments
- Block 12 – occupied by the Italian Cultural Centre (community activity centre)

Figure 1 – Location Map

2.0 REASONS FOR THE DRAFT PLAN AMENDMENT

Canberra's population is growing quickly, and the ACT has a limited amount of available land for new suburbs. To manage future growth in a sustainable way, the majority of new housing is required to be provided within existing suburbs, through urban infill and increased density. This provides the opportunity for current and future residents to live in walkable suburbs close to public transport, and high-quality services, including employment, health and education facilities and open spaces.

The proposal is consistent with the Inner South District Strategy. Within the Inner South District Strategy, Blocks 5, 6, 9, 11 and 12 Section 19 have been identified as a key site and category 2 change area where detailed planning can proceed, consultation needs to occur, and change could happen within 0–10 years. The supporting reports provided with the applications, and the supporting report contained in this document, for the amendments provide details of the further planning work.

Section 19 is surrounded by a mix of low and medium density residential development, the Forrest Primary School, and mid-rise office uses. DPA-B aims to transform this key site in line with the recommendations of the Inner South District Strategy into a mixed-use development precinct supporting a mix of commercial and residential uses, and delivering critical housing supply to Canberra's well located Inner South district.

The change of zoning will provide opportunities to contribute to a sustainable and compact city by providing mixed use development opportunities and increasing residential population in Forrest, a suburb that is well connected to workplaces, retail and community facilities and in proximity to public transport and the future light rail corridor.

The Italian Cultural Centre on Block 12 can continue to operate as a community activity centre under the proposed CZ5 zoning. This zoning change implements the aims of the District Strategy and would enable future redevelopment opportunities, if sought. Changes to the Crown Lease may also be required for future development.

DPA-B aims to conserve the existing qualities of the suburb of Forrest and respect the neighbourhood character surrounding Section 19, particularly by preserving green spaces, trees, and streetscapes which can also be enhanced with careful consideration of the interface with the surrounding land uses.

2.1 Amendment to the Territory Plan Map

The existing Territory Plan map for the area subject to this draft plan amendment is shown in Figure 2 and the proposed changes to the Territory Plan map are shown in Figure 3.

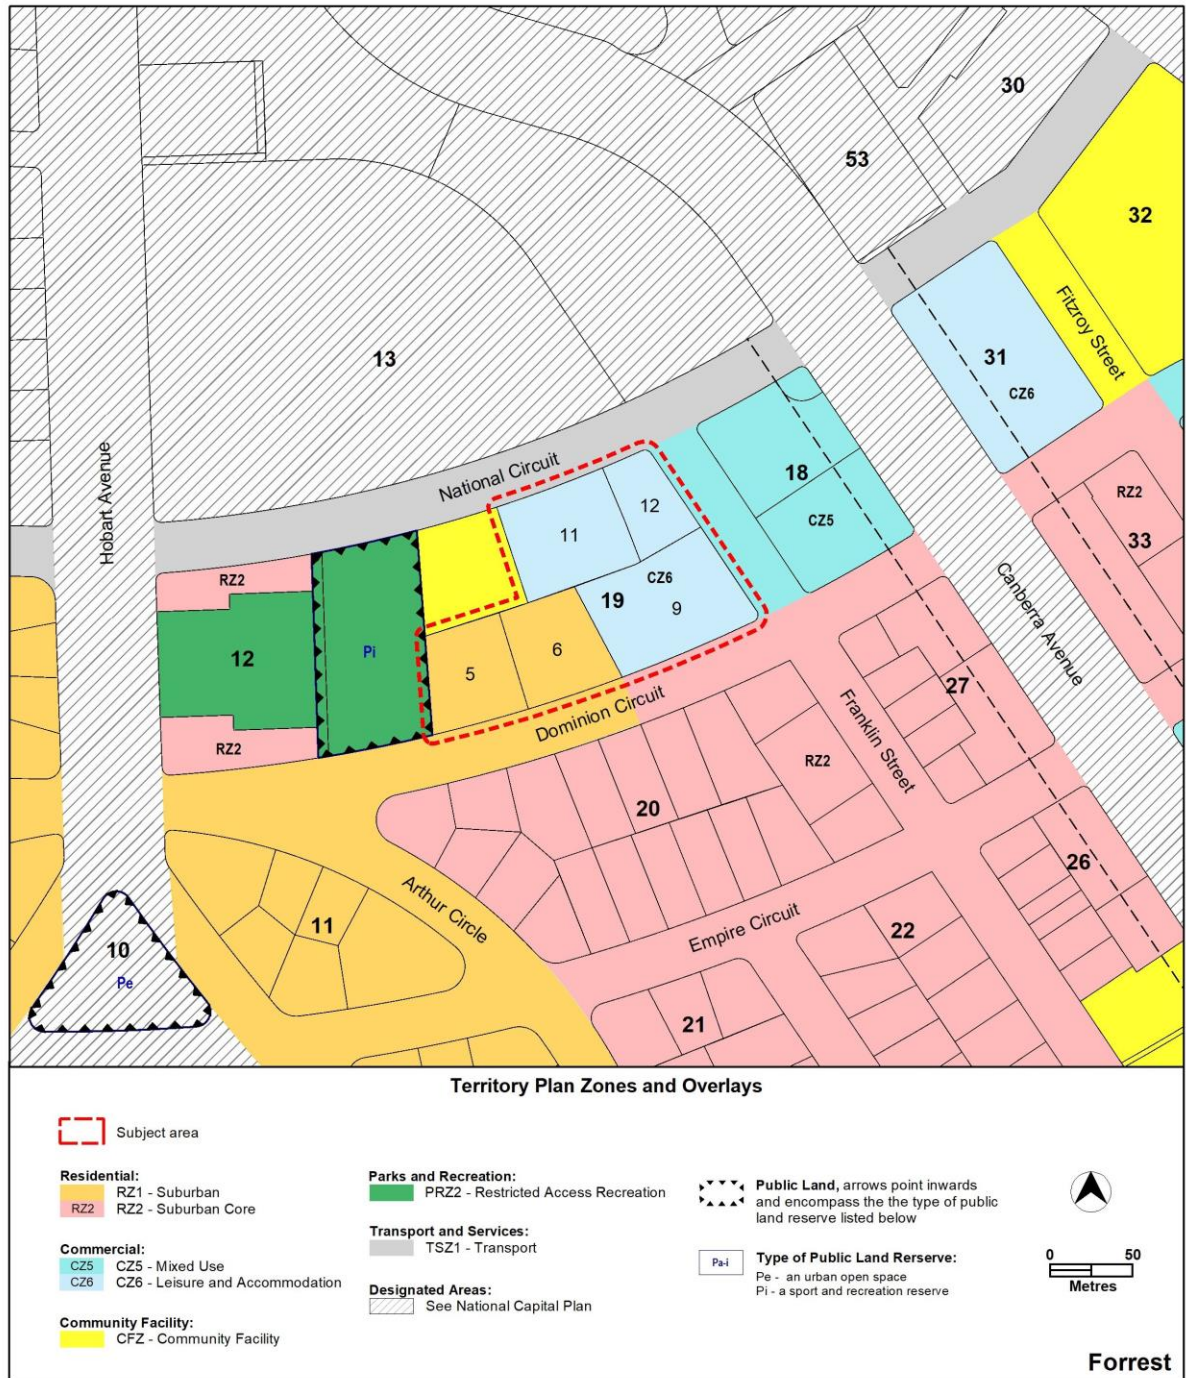

Figure 2 – Existing Territory Plan Map – current zoning

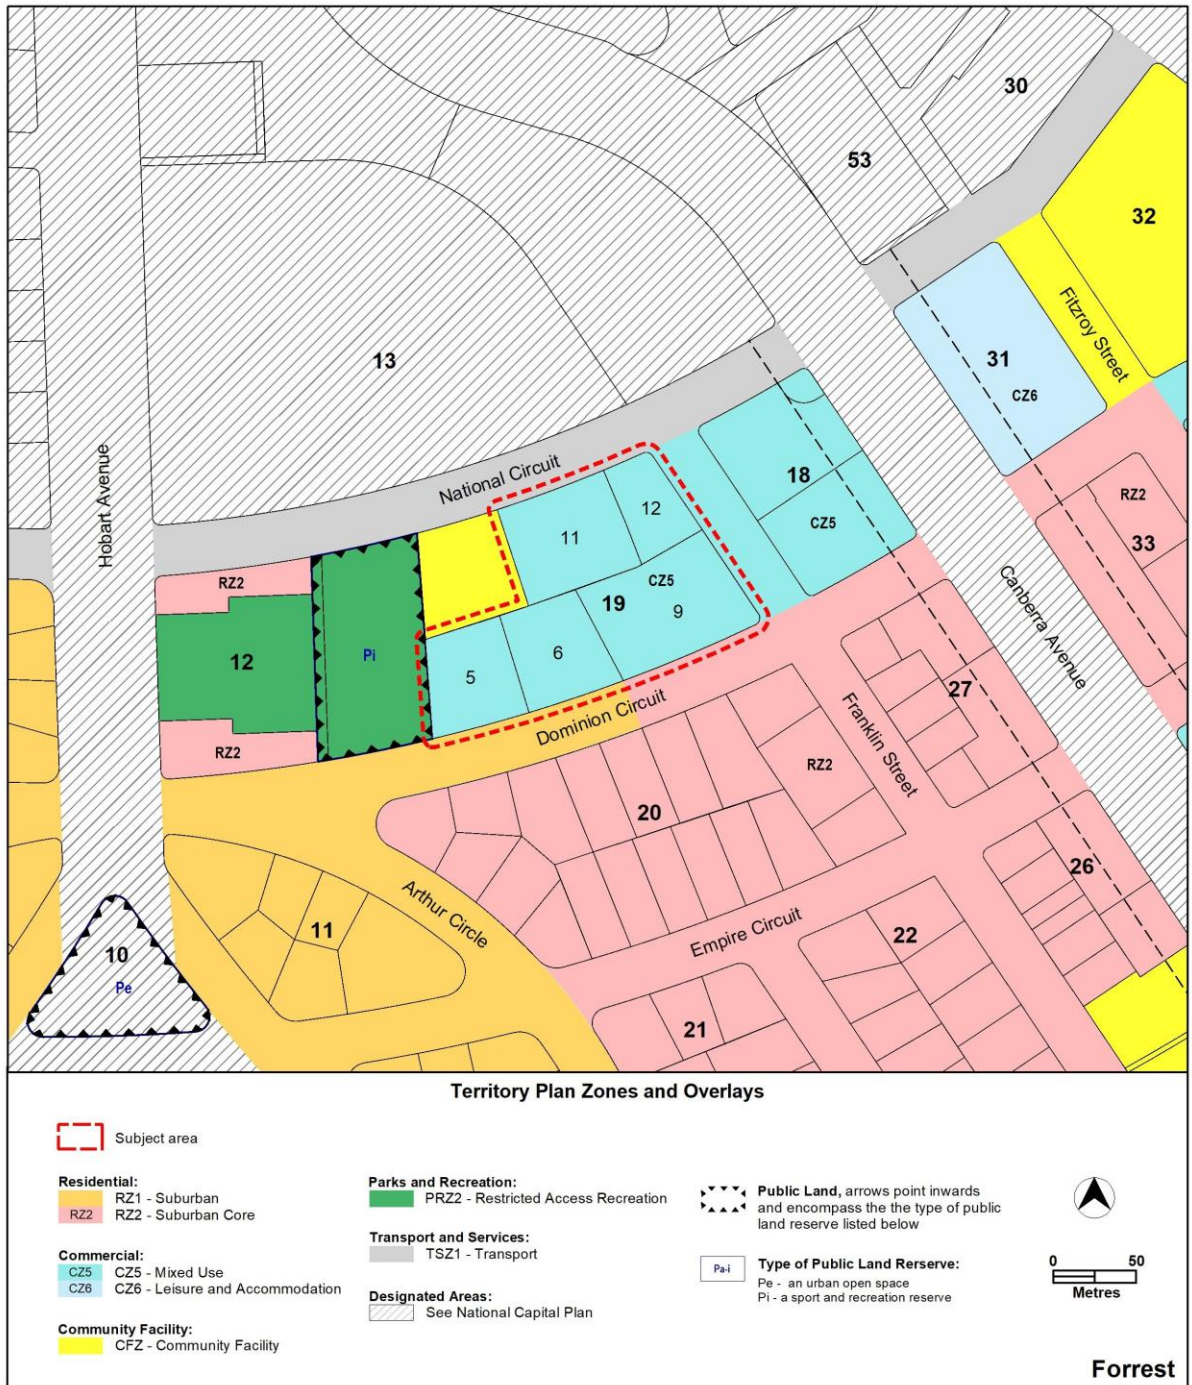

Figure 3 – Proposed Territory Plan Map zoning

2.2 Amendment to Territory Plan policies

An assessment outcome is proposed to limit vehicular access from Block 9 Section 19 to Dominion Circuit to provide safe and efficient traffic movement, pedestrian movement and active travel.

Additional assessment requirements are proposed to be introduced to protect the amenity of surrounding established uses, including residential, and to limit competition with the nearby centres.

The assessment requirements include a restriction on the size of a supermarket or shop selling food to 250m². Without this restriction, a shop or supermarket of 1500m² could be developed as a shop of that size is permitted in the CZ5 zone.

Other additional assessment requirements propose to limit building height to 7 storeys, limit driveways to Dominion Circuit, require landscaping along the Dominion Circuit frontage, and require appropriate site investigations to identify if there is any contamination to make sure the site is suitable for its intended use.

The **Inner South District Policy** (Part D04 - Inner South District Policy) is proposed to be amended by DPA-B in the following ways by introducing the following provisions:

Assessment outcome

- o Limit vehicular access from Block 9 to Dominion Circuit to provide safe and efficient traffic movement, pedestrian movement and active travel.

Assessment requirements

- o Limit driveways on Dominion Circuit for Blocks 5 and 6 to existing locations.
- o Limit shop selling food to 250m²
- o Limit building height on the site to 7 storeys, excluding plant room.
- o Require an intrusive detailed site investigation to be undertaken to determine whether past activities have impacted the site from a contamination perspective which is endorsed by the Environment Protection Authority (EPA) prior to approval of a development application to make sure the site is suitable for its intended uses.
- o Provide suitable landscaping to the Dominion Circuit frontage to reflect the residential character opposite.

In addition, changes are proposed to permit commercial accommodation use in the CZ5 Mixed Use zone. Currently, a hotel and motel are both permitted uses in the CZ5 Mixed Use zone, both of which include commercial accommodation units. However, commercial accommodation use, which generally includes serviced apartments, are not permitted. Under the Territory Plan, a hotel is required to also have a licenced premise, and a motel is required to have associated convenient space for car parking. Noting this, it is considered that commercial accommodation use would have similar, if not less impacts than a hotel or motel use. On this basis, this use has been added as a permitted use to the CZ5 Mixed Use zone.

The **Commercial Zones Policy** (Part E02 – Commercial Zones Policy) is proposed to be amended by DPA-B by:

- o Adding commercial accommodation use to the land use table as a permissible use CZ5.

It is noted that while the **supporting report for blocks 5, 6 and 11, Section 19** Forrest suggests heights of up to 10 storeys on parts of the above blocks, the proposed changes limit building height to 7 storeys across the entire site. This is to provide a consistency of development approach across the site and to approximate the average height of established trees around the site, which ranges from 20-25 metres, and averages at around 23 metres. This statement is provided pursuant to section 55 (b) (ii) of the Planning Act.

Further, the **Inner South District Strategy** suggests an accessible pedestrian path is provided between Dominion Circuit and National Circuit. It is noted that there is an existing pedestrian pathway between these two roads along the western boundary of the tennis courts, thus, meeting the requirement of the District Strategy.

The District Strategy also indicates that noise and overlooking impacts of adjoining uses of the tennis courts and church require consideration and make sure that the uses, which may extend after hours are not compromised. Under the recently introduced outcomes focussed planning system, such matters are covered in the related policies. These policies and how they work is covered in section 2.3 below.

2.3 Relevant Territory Plan Policies, Design Guides. Technical Specifications and other processes

Commercial Zones Policy

For any development in Commercial Zones in the Territory, site planning considerations are contained in the assessment outcomes and assessment requirements in the Commercial Zones Policy (including for the CZ5 zone). Both the outcomes and requirements must be met for development approval to be given. Many of these outcomes and requirements consider and minimise the impact of future development on the site and to other land uses.

For example, assessment outcome 6 of the Commercial Zones Policy aims to make sure there are no adverse impacts of development on adjoining land uses both within a site and on adjoining sites, including between non-residential and residential uses. Considerations for adjoining sites would also include noise and overlooking impacts of the church and tennis court uses as well as noise impacts from these existing uses and mitigation measures that may be required for residential development on adjoining sites.

Building design considerations, including height, bulk and scale are contained in assessment outcomes 14-17 of the Commercial Zones. These assessment outcomes encourage a range of building heights across larger sites which consider access to daylight, varied setbacks and relationship to open spaces, high quality urban design, and consideration of residential amenity and neighbouring properties.

Assessment outcome 18 of the Commercial Zones Policy guides living infrastructure outcomes and includes the following matters:

- planting area
- canopy trees
- deep soil planning zones
- water sensitive urban design measures

Assessment outcome 19 of the Commercial Zones Policy addresses urban heat island effects which are to be mitigated and reduced by limiting impervious surfaces, building material selection and provision of canopy trees and plants. Design Guides

To assist in the meeting the assessment outcomes in all zones policies including the Commercial Zones Policy, relevant design guides, such as the Housing Design Guide (where a development proposes multiple dwellings) are also required to be considered in the preparation and assessment of a development application.

The design guides include a range of relevant guidance, including guidance around solar orientation, setbacks and separation, privacy and outlook, building heights, street interface, communal and private open space and deep soil planting and tree canopy coverage.

Technical Specifications

The assessment outcomes are further supported with technical specifications, such as the Commercial Zones Technical Specifications. Technical specifications provide a benchmark and an approach to potentially achieve the assessment outcomes in the Commercial Zones Policy. However, these are optional to apply and are not deemed-to-satisfy provisions – it is the assessment outcomes that must be met.

For example, part of assessment outcome 18 for canopy trees can be achieved by meeting technical specification 18.1 that requires 30% canopy cover at maturity cover for surface car parking and that other development provides for 35% canopy cover at maturity for the proportion of the site not covered by playing fields, buildings or surface car parking.

National Capital Design Review Panel

Prior to the development application process where the above policies, guides and specifications are considered, the Planning Act also requires a proponent to present developments of over 5-storeys in height to the National Capital Design Review Panel (NCDRP) During their review, the NCDRP advises about consistency of the proposal with design principles and makes recommendations that aim to improve the quality of urban design.

2.4 Justification against the Planning Act

Supporting reports have been prepared for DPA-B. The supporting reports outline:

- the need for the proposed major plan amendment.
- the positive and negative impacts of the proposed major plan amendment.
- how the proposed major plan amendment would give effect to the planning strategy and any relevant district strategy.
- how the proposed major plan amendment would be consistent or inconsistent with relevant planning outcomes contained in other government strategies and policies.
- any consultation undertaken including with relevant entities who may have an interest in the proposed major plan amendment.

DPA-B is comprised of two proponent-initiated amendments and an Authority-initiated amendment, and how it meets the requirements of the *Planning Act 2023* (specifically section 58) is outlined in section 1.4 of this document for Block 12, and in the supporting reports for Block 9 and for Blocks 5, 6 and 11 respectively, and are available on the Planning [website](#). The Application Outcome Notices and applications for 2023-02 for Block 9, and Application 2025-02 for Blocks 5, 6, and 11 are also available on the Planning [website](#).

3.0 INTERIM EFFECT

Section 64 of the Planning Act does not apply to DPA-B which means it does not have interim effect. This means that the provisions of the current Territory Plan continue to apply.

4.0 CONSULTATION WITH THE PUBLIC AND GOVERNMENT ENTITIES

4.1 Entity comments

Formal entity comments will be sought concurrently at the start of the public consultation period.

4.2 Public consultation period

Written comments are invited from the public on DPA-B by **COB 22 April 2025**. Consultation with government entities, including mandatory referral entities under Section 62 of the Act, will be undertaken simultaneously.

4.3 Written comment requirements

Comments need to include your name and reference to the relevant DPA. The Authority may contact you in relation to your comments to request further information. If you wish to be contacted, include your contact details, including an email address and/or telephone number.

4.4 How to submit written comments

Written comments can be submitted by:

- email to terrplan@act.gov.au
- mail to: GPO Box 158, Canberra ACT 2601
- hand delivery to: Access Canberra Building Services Shopfront at 8 Darling Street, Mitchell ACT 2911

Where comments are mailed or hand delivered to the addresses above, envelope and documents should be attention to:
Territory Plan & Coordination Section, EPSDD

4.5 Public release of written comments

Written comments received on this major plan amendment will be published on the Authority's website for at least 30 working days, starting 10 working days after the consultation period for the amendment finishes.

Your personal information will be managed in accordance with the *Information Privacy Act 2014* and the EPSDD Information Privacy Policy (the latter is viewable on EPSDD's website). Unless requested otherwise:

- names and contact details of individuals making written submissions will not be published.
- contact information of business or community, industry, political and interest groups making written submission may be published.

You may request part of your submission to be excluded from public release under section 502 of the Planning Act.

4.6 Consultation Report

Entity comments and community comments will be considered, and a summary of matters raised and responses to those matters will be detailed in a consultation report. This report will also indicate if any change were made to DPA-B recommended to the Minister for Planning and Sustainable Development. The availability of those documents will be notified in a public availability notice and published on the planning website. This notification and

5.0 DRAFT MAJOR PLAN AMENDMENT B

DPA-B is proposing to amend the Territory Plan in the following ways:

5.1 Amendment to the Territory Plan map

The relevant part of the Territory Plan map is varied in accordance with Figure 4.

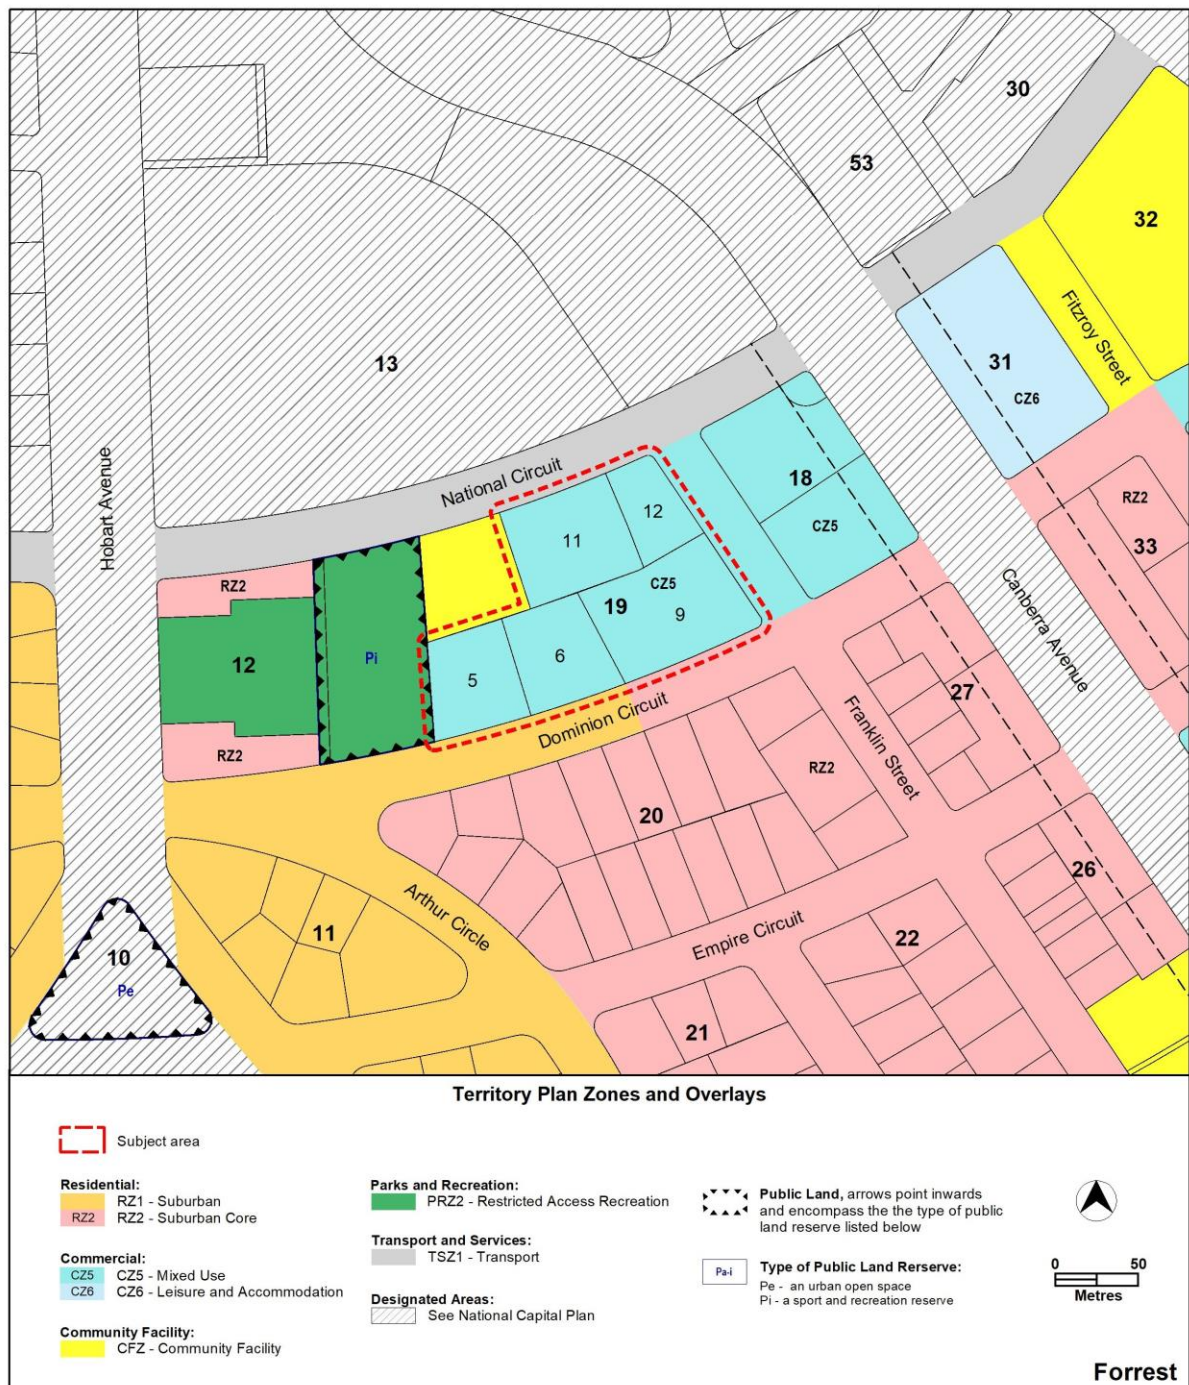

Figure 4 – Proposed Territory Plan Map

5.2 Amendment to D04 - Inner South District Policy

Area specific assessment outcomes

Insert new assessment outcomes

Locality	Assessment outcome
Forrest	
Vehicular access	2A. Vehicular access from Block 9 Section 19 to Dominion Circuit is limited to provide safe and efficient traffic movement, pedestrian movement and active travel.

Assessment Requirements

Insert new assessment requirements, under Locality Forrest.

Locality	Assessment requirement
Forrest	
Building heights	11. On Blocks 5, 6, 9, 11 and 12 Section 19, the maximum building height is 7 storeys.
Setbacks – Rooftop elements	12. On Blocks 5, 6, 9, 11 and 12 Section 19, the following are setback a minimum distance of 3m from the façade of the floor immediately below: <ul style="list-style-type: none"> a) roof top plant and plant screening, lift overruns, antennas, photovoltaic panels, air conditioning units, non gross floor area architectural features, chimneys, flues and vents
Gross floor area	13. On Blocks 5, 6, 9, 11 and 12 Section 19, the maximum gross floor area for a shop or supermarket selling food is 250m ² .
Access driveways	14. On Blocks 5 and 6 Section 19, no new access driveways onto Dominion Circuit are permitted.
Site suitability	15. For Blocks 5, 6, 9, 11 and 12 Section 19, an intrusive detailed site investigation, in accordance with the Environment Protection Authority endorsed guidelines, must be undertaken: <ul style="list-style-type: none"> a) by a suitably qualified environmental consultant to determine whether past activities have impacted the site from a contamination perspective and; b) to determine whether the site is suitable for the proposed uses, prior the approval of a development application.
Landscaping	16. For Blocks 5, 6, and 9 Section 19, landscaping to the Dominion Circuit frontage is provided to reflect the residential character opposite.

5.3 Amendments to E02 – Commercial Zones Policy

Land Use Table

Under Land Use / Development Type for 'Commercial accommodation use'

Add 'Y' to CZ5
