Subject: Fyshwick Waste Facility proposal
Date: Tuesday, 19 June 2018 4:49:52 PM

Dear Sir/Madam

The proposal to have a waste facility located off Ipswich Street in Fyshwick is one of the most ridiculous suggestions that I have heard, as it involves a huge increase in traffic into Fyshwick and the real possibility of serious environmental contamination in the form of odours from rotting material, noise and polluted run-off overflows into nearby streams and ultimately the lake. I usually access Fyshwick from Ipswich Street and it is already an extremely busy road and I find the prospect of competing with numerous extra trucks bearing stinking garbage does not cheer me. It might be closer to the sources of our garbage but the ACT surely has alternative sites that can provide the convenience claimed for using that site with marginally greater costs - such costs would be happily borne by the community to avoid the consequences of this stupid proposal. Where is the balanced thinking of our government in an age of increasing awareness of the environmental pollution? Please get real!
