**Subject:** Submission in Opposition - APPLICATION NUMBER 201700053

**Categories:** Green Category

Dear Mr. Ponton,

The proposed submission is manifestly inappropriate to the site in Fyshwick, and the Application should be denied.

I would expect that you have received many considered objections from concerned Canberrans that address the development and it's conflicts and shortcomings.

So I will take a different tack.

Fyshwick is slowly leaving the doldrums and shedding it's reputation for 'sex shops and fireworks', and now has better cafes, bars (and other aspects of comfortable 21st century culture) than ever before.

To regress to a waste dump facility of mammoth scale is utterly stupid and contrary to developing the area as a smart little mixed-use destination for Canberra tourism.

regards,

[REDACTED]
