Subject: N1 2018-27. Application number 201700053. A submission opposing any Material Waste Facility.

Categories: Green Category

As a resident of Narrabundah I wish to express my objection to the proposed MWF in Fyshwick and ask that this proposal be refused for the following reasons:

- 1) I think it is too close to the residential area in which I live which could be impacted by smells.
- 2) There is ample space further towards N.S.W. along the railway line for such a facility, it would not be a huge task to restore the rail line through to Hume as the easement already exists.
- 3) The increased traffic volume of large trucks along Ipswich St. and the area generally would impact all road users as well as local businesses.
- 4) A project such as a garbage depot in close proximity would devalue my home along with numerous others.
- 5) The out-break of a fire within such a site has proven to be a major problem at other sites.
