

Dear EPSDD planning,

I object to the proposed Material Waste Transfer station on Ipswich Street, Fyshwick. The Mugga tip has been expanded to have a lifespan of over 30 years, there is no need to bring this type of facility into Fyshwick. The Waste Feasibility Strategy has identified Hume as being developed into a state of the art Waste processing precinct and has close access to the Monaro Rail line if we wanted to transfer materials to processing facilities. This is just not an acceptable site for this type of facility, please consider my concerns in your decision-making process.

Regards,
