Subject: Proposed waste recycling centre in Wiluna St, Fyshwick
Date: Wednesday, 20 June 2018 9:33:59 AM

To whom it may concern,

I am hereby voicing my protest against the proposed recycling plant at Wiluna St Fyshwick.

It is a totally inappropriate site for this type of facility. It should not be built in a commercial and light industry zone.

Fyshwick is a suburb where people come to shop for home items and this rubbish plant is not compatible with this.

The smell and increased traffic would deter people from shopping within the vicinity.

My concerns are that it will impact significantly on the traffic in the vicinity, which is already congested.

I am totally against it being built in the proposed spot.

It is important to have a recycling plant but surely there are more appropriate places where it could be built which are not near well frequented shopping areas.

Why not put it near Parliament House if it supposedly will have no detrimental impact?

Please forward this email to the people/planning department involved in the decision making.

Regards,
