Subject: Waste management in Fyshwick

Categories: Green Category

I am opposed to the proposed development in Fyshwick in Ipswich Street. This proposal for waste management is not suitable for the area. I also believe that it is too close to the airport. This is not the look you want visitors to see as they enter Canberra.

There is a diversity of industry in Fyshwick but I strongly believe this type of waste management should be in a more industrial suburb e.g. Hume.

Regards,
