Allowing a recycling facility in Fyshwick which would bring hundreds of truck movements to the area would make Fyshwick a much more dangerous place to visit. We are always very wary & careful when visiting Fyshwick due to high traffic volume & trucks in Fyshwick. Adding a large volume of truck movement would make everything worse. Recycling facilities should be kept at a long distance from Canberra residential/commercial areas. Just as well the Fyshwick incinerator idea was canned - it was the most ludicrous proposal.
