**Submission on Fyshwick Garbage Dump aka Materials Recovery Facility -
Fyshwick - EIS application 201700053**

Canberra is supposed to be a planned city with a strategic plan with zones that show what is permissible and what is prohibited. Permitting this facility to be built in this location will show that ACT planning is dysfunctional.

The spin doctors who produced the supporting documentation for the EIS have it smelling like a rose garden. This garbage dump, if approved, will be the worst thing to ever happen to Fyshwick. It will decrease trade to commercial neighbours; potentially contaminate Jerrabomberra Wetlands; create traffic chaos; produce obnoxious odours to waft over Narrabundah, Fyshwick markets and surrounding areas; it will be noisy; produce fires; be a health hazard.

I request that EPD reject this proposal and not allow Pepe la Peu a home in Fyshwick
