---

Good afternoon,

I strongly object to the proposed waste disposal facility at Fyshwick on the grounds that it will affect the residential amenity of several suburbs in the immediate vicinity in terms of 'stench', many trucks using the roads and environmental issues.

Residents in Narrabundah and Griffith are paying some of the highest rates in the ACT and should not be subjected to having their residential environment eroded.

Also the very popular Fyshwick markets will lose customers if this facility is approved. Many of those traders have outdoor eating areas and patrons won't be eating if there is an unpleasant stench in the air!

Please DO NOT approve this application!

Kind regards,
